## WELDING

DMS expertly navigates your project through the rebuilding process with precision welding of all types of metals and alloys, including Bronze, Cast Iron, Hastelloy, Inconel, Nickel, Stainless Steel, Titanium, and more.

## GRINDING

O.D. & I.D. grinding is integral to the rebuilding and refurbishing of most parts.

At DMS, we combine our grinding shop expertise with hard chrome plating services to offer unparalleled service to our clients.

By utilizing specialized equipment and maintaining tight tolerances, DMS often delivers a finished product that exceeds OEM specifications.

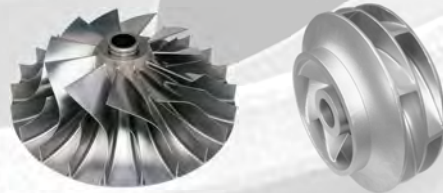

## COMMITMENT

At DMS, we conduct a thorough preliminary examination and evaluation of all impellers, casings, and rotors.

This includes failure analysis, metallurgical testing, and wear and deterioration assessment to determine the cause and extent of damage, along with the corrective measures required. We also provide an estimated cost and time for the repairs.

DMS offers the most advanced hard-facing and protective coating solutions available in the industry, providing our clients with the most cost-efficient options for rebuilding, repairing, or replacing their components.

## SERVICE

Delivering superior workmanship is our utmost priority.

To better serve our clients, we have implemented a continuous quality improvement program.

By constantly enhancing our repair and rebuilding capabilities, we ensure that we meet our clients' evolving needs.

Whether it's repairing or re-Manufacturing parts, we are committed to getting it right the first time.

DMS is dedicated to providing the best, fastest, and most reliable service available.
